

# ***A Crowning Glory***

Addenda as of Feb. 1st, 2023

## **The Rules:**

### **Section 10.2 Scenario Movement Limitations (change):**

This rule states no units can move into row 2400 or higher. This prohibition is meant to recreate the historical attack axis and thus remains in place. As three Austrian units start the game in rows 2400/2500 then these units must as their first move, maneuver down to the 2300 row (or less) using the fewest number of MPs possible. After that, the 2400 row prohibition goes into effect.
